SKILLS

- **Languages**: C, C++, JavaScript, TypeScript
- **Frameworks**: HTML and CSS, ReactJs , ExpressJs , NodeJs , NextJs
- **Tools/Platforms**: PostgreSql , MongoDB, Version Control
- **Core CS Subjects**: Object Oriented Programming, Operating System, Computer Network, DBMS
- **Soft Skills**: Problem-Solving Skill, Team Player, Adaptability

PROJECTS

Doctor Appointment Booking Platform | GitHub Aug' 2025 – Oct' 2025

- To build a full-stack medical appointment platform where patients can book doctor consultations, upload medical files securely, and make online payments seamlessly.
- Developed a MERN-based doctor appointment system featuring secure authentication, real-time scheduling, and role-based dashboards for patients and doctors. Integrated Cloudinary for storing images and medical reports, and implemented dual payment options using Stripe and Razorpay to support global and domestic transactions. The system includes appointment management, availability tracking, and automated status updates.
- Gained hands-on expertise in designing scalable full-stack systems using MongoDB, Express, React, and Node.js.
- Learned secure media handling using Cloudinary and implemented robust payment flows using Stripe & Razorpay.
- Strengthened skills in API design, authentication (JWT), state management, and building production-ready user interfaces
  Tech: MongoDB, Express.js, React.js, Node.js, Cloudinary, Stripe, Razorpay, JWT Auth, TailwindCss, Rest APIs.

Weather Forecasting Web Application | GitHub Apr' 2025- May 2025

- Shareable Dashboards is a live view of the Account Dashboard contains all the account Developed a responsive weather forecasting application using HTML, Css and JavaScript. Implemented real-time weather data retrieval by integrating the OpenWeather API, enabling users to search for any city and view temperature, humidity, wind speed, and weather conditions.
- Design a clean and interactive UI with dynamic DOM updates based on API responses. Added error handling for invalid city inputs and improved user experience with icons and color-based weather indicators.
- Deployed the application on GitHub Pages for public access , ensuring smooth performance and quick loading using optimized frontend code.
  Tech: HTML, CSS, JavaScript, OpenWeather API, GitHub Pages.

CERTIFICATES

- Full-Stack Web Development Bootcamp by Dr. Angela Yu – Udemy --Link Nov' 2025
- Data Structures And Algorithms – Certification by Iamneo --Link Dec' 2024
- C++ Object Oriented Programming – Certification by Iamneo --Link Dec' 2024

ACHIEVEMENTS

- **Completed 120+ problems in Striver's A2Z DSA Sheet:** Oct' 2025
  Strengthened coding and problem-solving skill in competitive programming--Link

EDUCATION

- **Lovely Professional University** Punjab, India
  Bachelor of Technology - Computer Science and Engineering; ***CGPA: 7.7*** *Since August 2023*
- **Green Valley Public School** Ahmedgarh , Punjab
  Intermediate; ***Percentage: 85.4%*** *April 2021 – June 2022*
- **Green Valley Public School** Ahmedgarh, Punjab
  Matriculation; ***Percentage: 75.4%*** *March 2019 – April 2020*
